

G.E.M.: Girls Expecting More

NC ALBERT SCHWEITZER FELLOWSHIP

Loren Robinson and Jennifer Waddy

2008-2009 Fellows

Through the support of the NC Albert Schweitzer Fellowship, G.E.M. was implemented at Brogden Middle School through the ENCORE! after school program.

- Education
- Mentoring
- Fellowship
- Pen-pal program
- Community Service

The G.E.M. Program covered:

- (1) Curricular Topics
 - Physical Health
 - Social Health
 - Emotional Health

- (2) Pen Pal Program

To expose the GEMS to a culture outside of their own and allow them to think of the global community and their responsibility to it, they corresponded to girls in South Africa.

- (3) Community Service

The GEM girls generated ideas for their own community service project. They really wanted to do something for their pen pals in South Africa and decided to hold a school fees and supply donation drive.
